This document sets out the terms and conditions that apply to these scholarships.
Terms and Conditions

How to Apply

1. Lodge an official UQ undergraduate or postgraduate program application for entry into one of the eligible Science programs (listed in the Appendix) directly to The University of Queensland or through your education agent. 
   https://future-students.uq.edu.au/apply or via:
   UQ International Admissions Section
   Level 2, JD Story Building
   The University of Queensland
   Brisbane, Queensland, 4072 Australia
   Email: applicationstatus@uq.edu.au

   Lodging an application requires you to pay UQ’s application fee for international students.

2. Receive a UQ Student ID Number and an offer. If your offer is conditional you must meet all conditions by the scholarship closing date.

   UQ must receive your program and scholarship applications by the scholarship closing date at 5pm Australian Eastern Standard Time (AEST):
   - 15 January for a Semester 1 (February) commencement
   - 30 June for a Semester 2 (July) commencement

Eligibility

To be eligible for a Science International Scholarship at UQ, an applicant must:

- Satisfactorily complete the application process as outlined above.
- Be able to be classified as an international student in Australia. Australian permanent residents and Australian citizens are not eligible, and should instead refer to UQ’s domestic scholarship schemes at scholarships.uq.edu.au
- By the scholarships closing date, submit all documentation to meet conditions associated with an offer from UQ for an approved program (see Appendix).
- Demonstrate strong academic performance as part of the UQ program application.
- Be enrolling in a program administered by the UQ Faculty of Science; the program must be of more than one (1) year’s duration (full time).
- Be enrolling in their first semester of study at UQ.
- Not defer their studies – the scholarship cannot be deferred.
- Dual degree students are eligible to apply for the Science International Scholarship where part of the dual degree is an eligible Science program (e.g. Bachelor of Science/Bachelor of Arts dual degree program). However, dual degree applicants must not simultaneously hold another scholarship for study at UQ.
Ineligibility

- UQ will not consider incomplete applications or applications that are inaccurate, false or misleading.
- If you are already enrolled at UQ and seek a program change, you are not eligible for these scholarships.
- Students enrolling in non-award, Study Abroad, or Exchange programs are ineligible.
- The scholarship cannot be deferred. Students who defer their studies to a future semester will no longer be eligible for the scholarship and will need to reapply for future scholarship rounds.
- Students must not simultaneously hold another scholarship for study at UQ.

Selection Process

Following each closing date, applications will be considered through the following process:

- The Faculty of Science Associate Dean (Academic) (or nominee) will select scholarship recipients.
- Selection will be based on selection criteria shown below.
- Wherever possible, UQ will notify applicants of the outcome of their application within two (2) weeks of the scholarship closing date.
- The decision of the Associate Dean (Academic) (or nominee) is final and no correspondence will be entered into.

Selection Criteria

UQ will select winners based on:

- Academic performance (based on academic credentials submitted as part of UQ program application).
- Capacity to create change and contribute to science (based on the personal statement submitted as part of the Science International Scholarship application).
- UQ values diversity and inclusion and encourages applications from those who bring diversity to the university. The Faculty of Science also wishes to encourage gender balance in its admissions. The selection panel will take these goals into account.

Obligations of Scholarship Recipients

Each scholarship winner must:

- Commence study in the semester indicated in the UQ offer letter.
- Make the best possible attempt to successfully complete the program of study.
- Permit UQ to publish their name and photo, and degree program name, and identify them as a scholarship winner.
- Provide a testimonial and suitable photo for publication.

Payment

- Payment of scholarships is conditional on scholarship recipients meeting the obligations outlined above, as applicable, at the payment date.
- UQ will pay the scholarship winners after the census date in the first semester of study.
- UQ will pay into each recipient’s nominated Australian bank account.
Appendix – List of Eligible UQ Science Programs

Undergraduate Programs
Bachelor of:
- Advanced Science (Honours)
- Agribusiness
- Agricultural Science
- Biomedical Science
- Biotechnology (Honours)
- Environmental Management (Honours)
- Environmental Science (Honours)
- Equine Science
- Mathematics
- Occupational Health and Safety Science (Honours)
- Regional and Town Planning
- Science
- Veterinary Science (Honours)
- Veterinary Technology
- Wildlife Science

Postgraduate Programs
Master of:
- Agribusiness
- Agricultural Science
- Animal Science
- Bioinformatics
- Bioinformatics (Research Extensive)
- Biotechnology
- Biotechnology (Research Extensive)
- Conservation Biology
- Conservation Science
- Environmental Management
- Financial Mathematics
- Food Science and Technology
- Geographic Information Science
- Magnetic Resonance Technology
- Mineral Resources
- Molecular Biology
- Molecular Biology (Research Extensive)
- Molecular Imaging Technology
- Occupational Health and Safety Science
- Quantitative Biology
- Quantum Technology
- Science
- Urban and Regional Planning
- Veterinary Science
